Professional experience

Sept. 2019 - May 2025 : Software engineer @ Jetpack.AI (Belgium)

References : Karim Douieb, co-founder karim@jetpack.ai & Antoine Dejonckere, Team lead antoine@jetpack.ai

Developed, delivered and maintained applications in the field of operational analytics.

Focus on frontend development, RESTful API design, and cloud deployment.

Closely collaborated with data-scientists to integrate AI models with our clients data.

Partnered with a large range of industries, including Energy distribution systems, Airport management and Military sectors.

Tech: JavaScript, TypeScript, React, NodeJS, Python, AWS, Docker, Terraform, D3.js, PostgreSQL

2013 - 2023 : STEM Instructor @ Jeunesse Scientifique (Belgium)

Involved in summer camp and weekly classes where I guided children and teenagers in exploring the technology world, showing them that robots and video games are not just complex or futuristic things, but projects they can create themselves. And the most important, is that it's actually fun !

Tech: Javascript, Python, Processing (Java), HTML, Scratch, Lego Mindstorm, Arduino, Unity, Android

2018 : Frontend developer @ Emakina (Belgium)

Contributed to an internal tool aiming to test and monitor WebSocket connections

Tech: ReactJS, TypeScript, NodeJS, WebSocket, Electron, Jest, Puppeteer
